*“Convenience translation of the Independent Auditor’s Report originally issued in Turkish, see Note I of section three”*

**To the Board of Directors of Turkland Bank Anonim Şirketi**

**INTERIM REVIEW REPORT ON INTERIM FINANCIAL INFORMATION  
FOR THE PERIOD JANUARY 1, 2015 – JUNE 30, 2015**

**Introduction**

We have reviewed the unconsolidated balance sheet of Turkland Bank A.Ş. (“the Bank”) at 30 June 2015 and the related unconsolidated income statement, unconsolidated statement of income and expense items under shareholders’ equity, unconsolidated statement of changes in shareholders’ equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the six-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 “Interim Financial Reporting” except for the matters regulated by BRSA Legislation. Our responsibility is to express a conclusion on these interim financial statements based on our review.

**Scope of Limited Review**

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, “Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity” promulgated by the Public Oversight Accounting and Auditing Standards Authority (“POA”) of Turkey. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true and fair view of the financial position of Turkland Bank A.Ş. at 30 June 2015 and of the results of its operations and its cash flows for the six-month-period then ended in all aspects in accordance with the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 “Interim Financial Reporting” except for the matters regulated by BRSA Legislation.

**Additional paragraph for convenience translation to English:**

As explained in detail in Note I of Section Three, the effects of differences between accounting principles and standards set out by BRSA Accounting and Reporting Legislation, accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**NOTES TO THE FINANCIAL STATEMENTS**  
**AS OF JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

**SECTION ONE**

**GENERAL INFORMATION**

**I. Bank's Incorporation Date, Beginning Statue, Changes in the Existing Statue**

Turkland Bank Anonim Şirketi ("the Bank"), was established in 1991 in İstanbul under the name of "Bahreyn ve Kuveyt Bankası Anonim Şirketi" (BB&K). Its name was changed as "Tasarruf ve Kredi Bankası Anonim Şirketi" with its acquisition by Doğuş Group in 1992. After the change in the name of the bank as "Garanti Yatırım ve Ticaret Bankası Anonim Şirketi" in 1994, Mehmet Nazif Günal (the main shareholder of MNG Group Companies) has acquired the Bank in 1997 and the name of the Bank has been changed as "MNG Bank Anonim Şirketi".

An agreement has been made with Arab Bank and BankMed for the sale of 91% of MNG Bank's shares in mid of 2006 and this agreement was approved by Banking Regulation and Supervision Agency (BRSA) on December 29, 2006. In this regard, while Arab Bank and BankMed purchasing 50% and 41% of MNG bank shares respectively, Mehmet Nazif Günal retained 9% of the shares. Transfer of the Bank was made on January 29, 2007. The title of the Bank was changed as "Turkland Bank Anonim Şirketi" with the amendment to the Articles of Association by the decision of the Extraordinary General Assembly at the meeting on March 22, 2007.

On April 3, 2007, "MNG BANK Anonim Şirketi" title of the bank was registered as "TURKLAND BANK Anonim Şirketi".

According to the Share Sale and Purchase Agreement and Board of Directors' Decision dated February 26, 2010 and July 15, 2010 respectively, Mehmet Nazif Günal's 153 million shares with TRY 15,300 nominal value were purchased by BankMed SAL. As of July 22, 2010 the share transfer was realized.

According to the Extraordinary General Assembly decision dated May 30, 2011, it was decided to increase the Bank's capital from TRY 170,000 to TRY 300,000, and it was registered in the Turkish Trade Registry Gazette dated June 20, 2011 numbered 7840. According to the BRSA approval dated September 15, 2011 numbered 4381 the unused preemptive right of Arab Bank Plc amounting to TRY 65,000 have been used by Arab Bank (Switzerland) Ltd (ABS). Capital commitments have been paid by shareholders and according to the BRSA decision dated October 20, 2011 numbered 22244 it has been transferred to the capital accounts.

According to the Ordinary General Assembly decree dated April 18, 2013, it has been decided to increase the Bank's paid in capital from TRY 300 million to TRY 500 million. The capital increase is committed to be paid in two equal installments, each one amounting to TRY 100 million, respectively by April 30, 2013 and October 30, 2013. BankMed SAL, shareholder of the Bank by 50%, has paid in cash TRY 50.0 million corresponding to its share for the capital increase; Arab Bank PLC, shareholder of the Bank by 28.3%, has paid in cash TRY 28.3 million corresponding to its share for the capital increase; Arab Bank (Switzerland), shareholder of the Company by 21.7%, has paid in cash TRY 21.7 million corresponding to its share for the capital increase. The capital commitments paid by the shareholders were transferred into the share capital accounts with the approval of Banking Regulation and Supervision Agency dated May 28, 2013 and numbered 13388.

For the second installment of the capital increase; BankMed SAL, shareholder of the Bank by 50%, has paid in cash TRY 50 million corresponding to its share for the capital increase in October 4, 2013, Arab Bank PLC, shareholder of the Bank by 28.3%, has paid in cash TRY 28.3 million corresponding to its share for the capital increase and Arab Bank (Switzerland), shareholder of the Bank by 21.7%, has paid in cash TRY 21.7 million corresponding to its share for the capital increase in October 21, 2013. The capital commitments paid by the shareholders were transferred into the share capital accounts with the approval of Banking Regulation and Supervision Agency dated November 11, 2013 and numbered 28000.

According to the Ordinary General Assembly decree dated April 15, 2014, it has been decided to increase the Bank's paid in capital from TRY 500 million to TRY 650 million. In April, 2014, TRY 150 million has been paid in cash. The capital commitments paid by the shareholders were transferred into the share capital accounts with the approval of Banking Regulation and Supervision Agency dated August 28, 2014 and numbered 20637.

**TURKLAND BANK ANONİM ŞİRKETİ**  
**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

**SECTION THREE**  
**ACCOUNTING PRINCIPLES**

**I. Basis of Presentation**

The financial statements are prepared in accordance with the “Regulation on the Principles and Procedures Regarding Banks’ Accounting Applications and Safeguarding of Documents” published in the Official Gazette No. 26333 dated November 1, 2006 by the Banking Regulation and Supervision Agency (“BRSA”) which refers to “Turkish Accounting Standards” (“TAS”) and “Turkish Financial Reporting Standards (“TFRS”) issued by the Public Oversight Accounting and Auditing Standards Authority and other decrees, notes and explanations related to the accounting and financial reporting principles (all “Turkish Accounting Standards” or “TAS”) published by the BRSA. The format and the details of the publicly announced unconsolidated financial statements and related disclosures to these statements have been prepared in accordance with the “Communiqué Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements” and changes and notes to this communiqué published in the Official Gazette No. 28337 dated September 28, 2012. The Bank’s accounting books are prepared in accordance with Banking Law, Turkish Commercial Code and Turkish Tax Legislations in Turkish Lira. The preparation of financial statements in conformity with TAS requires the use of certain critical accounting estimates by the Bank management to exercise its judgment on the assets and liabilities on the balance sheet and contingent issues as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are explained in the related notes and reflected to the income statement.

The accounting policies adopted in the preparation of the Bank’s financial statements are consistent with the accounting policies adopted for financial statements dated December 31, 2014 and changes of TAS/TFRS that is effective from January 1, 2015 have an immaterial effect on the accounting policies, financial position and performance of the Bank. These accounting policies and valuation principles are explained in Notes II to XXII. Changes in TAS and TFRS are issued but not yet effective as the date of the financial statements with the exception of TFRS 9 Financial Instruments Standards do not have any effect on the accounting policies, financial position and performance of the Bank. The bank is assessing the impact of TFRS 9 Financial Instruments Standard.

Except for trading and available for sale assets and derivatives that are shown at fair values, financial statements are prepared based on historical cost.

Additional paragraph for convenience translation:

The effects of differences between accounting principles and standards set out by BRSA Accounting and Reporting Legislation, accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**II. Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions**

The Bank focuses its activities in corporate banking. The primary objective of the Bank is to sustain liquidity while fulfilling customer needs. Thus, the Bank places approximately 20.57% of its resources in liquid assets, while the Bank also aims for the highest yield possible with effective maturity management.

Besides its principle activity, the main financial instruments of the Bank are money market placements, treasury bills and government bonds.

## **Translated into English from the original Turkish report and financial statements**

### **TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

#### **II. Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions(continued)**

Marketable securities comprising 12.95% of total assets are assets with low risk and high yield. Placements in domestic banks and abroad are 7.43% of the total assets and these assets provide liquidity with low risk and yield.

The Bank aims at creating an optimum maturity risk and working with a positive margin between cost of resource and product yield in the process of asset and liability management.

As a component of the risk management strategy of the Bank, the management of risk bearing short positions of currency, interest or price movements is performed only by the Treasury and using the limits defined by the Board of Directors.

#### **III. Explanations on Forward and Option Contracts and Derivative Instruments**

The Bank's derivative instruments consist of foreign currency swaps, forward foreign currency buy/sell transactions and options. Derivative instruments are accounted for at their fair values as of the contract date and subsequently valued at fair value. Certain derivative instruments, although economical hedges, are accounted as trading transactions since they are not qualified to be a hedging instrument as per "Financial Instruments: Recognition and Measurement" ("TAS 39"). Realized gains or losses on these instruments are reflected in the statement of income. Unrealized gains or losses arising from the change in the fair value are recorded in disallowable expenses or income according to the current tax legislation.

Contract amounts of derivatives are recorded in off the balance sheet contingencies and commitments.

There are no embedded derivatives separated from the host contract or that are designated as hedging instruments as of the balance sheet date.

#### **IV. Explanations on Interest Income and Expenses**

Interest income and expenses are recognized in the income statement on an accrual basis using the effective interest method. In accordance with the regulation on "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" published in the Official Gazette numbered 26333 dated November 1, 2006, interest accruals of the non-performing loans are reversed and interest income related to these loans is recorded as interest income only when collected.

#### **V. Explanations on Fees and Commission Income and Expenses**

All fees and commission income/expenses are recognized as income at the time of realization and during the service is provided. Loan related fees and commissions paid to or received from the other institutions are considered as transaction costs and accounted using the effective interest method.

#### **VI. Explanations on Financial Assets**

Financial instruments comprise financial assets, financial liabilities and derivative instruments. Financial instruments affect liquidity, market, and credit risks on the Bank's balance sheet in all respects. Bank trades these instruments on behalf of its customers and on its own behalf.

Basically, financial assets create the majority of the commercial activities and operations of the Bank. These instruments expose, affect and diminish the liquidity, credit and interest risks in the financial statements.

**Translated into English from the original Turkish report and financial statements**

**TURKLAND BANK ANONİM ŞİRKETİ**  
**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

**VI. Explanations on Financial Assets (Continued)**

All regular way purchases and sales of financial assets are recognized on the settlement date. The settlement date is the date that the asset is delivered to or by the Bank. Settlement date accounting requires (a) accounting of the asset when acquired by the institution and (b) disposing of the asset out of the balance sheet on the date settled by the institution; and accounting of gain or loss on disposal. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted for in the same way as the acquired assets.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

The methods and assumptions used in the recognition and measurement of financial instruments are mentioned below.

*Cash, Banks, and Other Financial Institutions*

Cash and cash equivalents comprise cash on hand, demand deposits, and highly liquid short-term investments with maturity of 3 months or less following the purchase date, not bearing risk of significant value change, and that are readily convertible to a known amount of cash and are carried at amortized cost. The book values of these assets approximate their fair values.

*Financial Assets at Fair Value Through Profit and Loss*

Trading securities are securities which were either acquired for generating a profit from short-term fluctuations in price or dealer's margin, or are securities included in a portfolio with a pattern of short-term profit taking.

Trading securities are initially recognized at cost (which represents the fair value at the time). The positive difference between the cost and fair value of such securities in the accounts is accounted for as interest and income accrual, and the negative difference is accounted for as "Impairment Provision on Marketable Securities".

*Held to Maturity Investments*

Investments held to maturity include securities with fixed or determinable payments and fixed maturity where there is an intention of holding till maturity and the relevant conditions for fulfillment of such intention, including the funding ability and excluding loans and receivables.

Held to maturity investments are initially recorded at cost including transactions costs. After initial recognition held to maturity investments are measured at amortized cost by using effective interest rate less impairment losses, if any.

Held-to-maturity securities are carried at "amortized cost" using the "effective interest method" after their initial recognition. Interest income related with held-to-maturity securities is recorded in "Interest income" and impairment arising from a decrease in cost or revalued amounts is recorded in "Provision for impairment of loans and other receivables" accounts.

*Financial Assets Available for Sale*

Available for sale financial assets include all securities other than loans and receivables, securities held to maturity and securities held for trading.

The marketable securities are initially recognized at cost including the transaction costs (which represents the fair value at the time).

**TURKLAND BANK ANONİM ŞİRKETİ**  
**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

**VI. Explanations on Financial Assets (continued)**

After the initial recognition, available for sale securities are measured at fair value and the unrealized gains/losses originating from the difference between the amortized cost and the fair value is recorded in "Marketable Securities Value Increase Fund" under the equity. Fair values of debt securities that are traded in an active market are determined based on quoted prices or current market prices. In the absence of prices formed in an active market, fair values of these securities are determined by using other valuation methods stated in TAS.

The Bank has an equity investment with participation rate of 0.0129% in the available for sale financial assets portfolio. Since this equity investment does not have fair value, it is carried at cost.

The Bank classifies its securities as referred to above at the acquisition date of related assets.

*Loans and receivables*

Loans are non-derivative financial assets which have fixed or determinable payments and are not traded.

The Bank initially records loans and receivables at fair value. In subsequent periods, in accordance with TAS, loans are measured at amortized cost using effective interest rate method.

Foreign currency indexed loans are converted into TRY from the foreign currency rate as of the opening date and followed in TRY accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the statement of income.

Foreign exchange gains and losses on the foreign currency indexed loans are presented under foreign exchange gains and losses.

**VII. Explanations on Impairment of Financial Assets**

At each balance sheet date, the Bank evaluates the carrying amounts of its financial asset or a group of financial assets to determine whether there is an objective indication that those assets have suffered an impairment loss. If any such indication exists, the Bank determines the related impairment.

A financial asset or a financial asset group incurs impairment loss only if there is an objective indicator related to the occurrence of one or more than one event ("loss event") after the first journalization of that asset; and such loss event (or events) causes, an impairment as a result of the effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group. Irrespective of high probability the expected losses for future events are not journalized.

Specific reserves are provided for non performing loans in accordance with the regulation on "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" published in the Official Gazette No. 26333 dated November 1, 2006 which was amended with communiqué published in the Official Gazette No. 27119 dated January 23, 2009. In this context, the management estimates are determined, on the basis of the Bank credit risk policies, considering the general structure of the loan portfolio, the financial conditions of the customers, non-financial information and the economic conjuncture. These provisions are reflected in the income statement under "Provision and Impairment Expenses - Special Provision Expense".

The collections made related to loans for which provision is made in the current period are reversed from the "Provision for Loans and Other Receivables" account in the income statement. The collections made related to loans written off or provisioned in prior years are recorded to "Collections Related to the Prior Period Expenses" under "Other Operating Income" account and related interest income is credited to the "Interest Received from Non-performing Loans" account.

In addition to specific loan loss provisions, within the framework of the regulation and principles referred to above; Bank records general loan loss provisions for loans and other receivables. Together with the change in the same regulation made on February 6, 2008, the Bank started to book general loan loss provision of 2% for cash loans under watch-list and 0.4% for non-cash loans under watch-list. On January 23, 2009 the Article 7 of the regulation has been amended such that the specified rates are applied at one fourth for payment commitments for checks related to checkbooks extended five years ago or earlier.

**TURKLAND BANK ANONİM ŞİRKETİ**  
**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

**VII. Explanations on Impairment of Financial Assets(continued)**

In accordance with the change in the Regulation on Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside (published in the Official Gazette numbered 27947 dated May 28, 2011); general provision loans which are classified in the first group has to be set at least 5 folds of the general provision rate due to the change in the payment plans of those first group loans. General Provision for loans that are classified in the second group has to be set at least 2.5 folds of the general provision rate due to the change in the payment plans of those second group loans. Information related to standard and close monitoring loans which their payment plans have changed is disclosed under the note 5c under the “Explanations and Disclosures Related to the Assets” section.

In accordance with the changes in the Regulation on Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside (published in the Official Gazette numbered 27947 dated May 28, 2011 and Official Gazette numbered 27968 dated June 18, 2011); banks whose total letters of guarantees, bank acceptances, letters of credit commitments, endorsements, purchasing guarantee on security issuance, factoring guarantees, other guarantees and sureties, and unsecured pre-financing loans exceeds 10 folds of equities calculated within the scope of principles and procedures stated in the Regulation on Equities of Banks implement general provision ratio as 3/1000 for all standard non-cash loans.

As of June 30, 2015 the provision rates determined for the non-cash loans do not exceed the required ratios therefore standard rates which are determined in the regulation have been used for the non-cash loans.

In accordance with the change in “Regulation on Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside”(published in the Official Gazette numbered 27968 dated June 18, 2011), The banks whose total consumer loans to total loans more than 25% and the auto and housing loans, vehicle classed as non-performing loans consumer loans and consumer loans, housing loans, other than the banks that over 8% of the overall response rate observed in the first group auto and housing for maturities of loans for consumer loans other than loans at 4% in the second group followed the vehicle for consumer loans and mortgage loans, except for maturities of 8% applies” rulling is given. As of June 30,2015 with regard to performing consumer loans, the additional general loan loss provision is reserved amounted TRY 596.

In accordance with the change in the “Regulation on Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside” (published in the Official Gazette numbered 28158 dated December 30, 2011); Banks are not required to set specific provision for the amount that has to be paid for each cheque leaf of the chequebooks of the loan customers of whose related loans and other receivables are classified under third, fourth or fifth group with 100% specific provision if the Banks informs the chequebooks owners to return the chequebooks back to the Bank within 15 days through registered and reply-paid letter. This is valid for the chequebooks owners whose loans and other receivables are derecognized by the Banks.

In accordance with the change in the “Regulation and Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside”(published in the Official Gazette numbered 28418 dated September 21, 2012), the amount of general loan loss provisions calculated over the rates disclosed in the first paragraph of Article 7 of the Comminiqué recorded for standard loans as of the end of the month and for the cash loans, letter of guarantees, bills and sureties and the non-cash loans which are closely monitored; at minimum 40% should be booked until December 31, 2012, at minimum 60% until December 31, 2013, at minimum 80% until December 31, 2014 and 100% should be recorded until December 31, 2015.

As of December 31, 2014, the Bank has been recorded all provisions which have should be recorded in according with the comminique.

In accordance with the change in the “Regulation and Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside” (published in the Official Gazette numbered 28789 dated October 08, 2013 and numbered 29267 dated February 14, 2015, banks may apply 0% for standard qualified cash and non-cash credits for transit trade, foreign currency earning services and the sales and deliveries deemed export, 0.5% for SME cash loansand 0.1% for non cash loans. Hence, the Bank applied the amendment as of June 30, 2015.

**Translated into English from the original Turkish report and financial statements**

**TURKLAND BANK ANONİM ŞİRKETİ**  
**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

**VII. Explanations on Impairment of Financial Assets(continued)**

In accordance with the change in the “Regulation and Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside”(published in the Official Gazette numbered 28789 dated October 8, 2013), Banks shall provide, in the general provision calculated by the end of the most recent month before the date of entry into force of this Regulation for the standard loans and closely monitored loans except mortgage loans, at least twenty-five percent (25%) as of December 31, 2013, at least fifty percent (50%) as of December 31, 2014 and at least hundred percent (100%) as of December 31, 2015 of the increases arising from the implementation of this regulation on the date this Regulation enters into force.

**VIII. Explanations on Offsetting of Financial Assets and Liabilities**

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and the intention of collecting or paying the net amount of related assets and liabilities or the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

**IX. Explanations on Sales and Repurchase Agreements and Lending of Securities**

The sales and purchase of government securities under repurchase agreements made with the customers are being recorded in balance sheet accounts in accordance with the Uniform Chart of Accounts. Accordingly in the financial statements, the government bonds and treasury bills sold to customers under repurchase agreements are classified under securities held for trading, available for sale and held to maturity depending on the portfolio they are originally included in and are valued according to the valuation principles of the related portfolios. Funds obtained from repurchase agreements are classified as a separate sub-account under money markets borrowings account in the liabilities. These transactions are short-term and consist of domestic public sector debt securities.

Funds given against securities purchased under agreements to resell (“reverse repo”) are accounted under “Receivables from reverse repurchase agreements” on the balance sheet. The difference between the purchase and determined resell price is accrued over the life of repurchase agreements using the effective interest method.

The income and expenses from these transactions are reflected to the “Interest Income on Marketable Securities” and “Interest Expense on Money Market Borrowings” accounts in the income statement.

As of June 30, 2015, the Bank has not any reverse repo transactions(December 31, 2014: None).

As of June 30, 2015, the Bank does not have any marketable securities lending transaction(December 31, 2014: None).

**X. Explanations on Assets Held for Sale and Discontinued Operations**

Assets held for sale with high probability of sale, are those under a plan prepared by the management regarding the sale of the asset to be disposed (or else the group of assets), together with an active program for determination of buyers as well as for the completion of the plan. Also the asset (or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or canceling the plan is low.

The Bank does not have any assets held for sale as of June 30, 2015 (December 31, 2014: None).

A discontinued operation is a division of a bank that is either disposed or held for sale. Results of discontinued operations are included in the income statement separately. The Bank does not have any discontinued operations.

## Translated into English from the original Turkish report and financial statements

### TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED JUNE 30, 2015

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

#### XI. Explanations on Goodwill and Other Intangible Assets

There is no goodwill regarding the investments in associates and subsidiaries.

Other intangible assets are accounted for at cost less accumulated amortization. Other intangible assets are amortized with straight-line method based on their economic lives. There is no change in the amortization method in the current period .

The intangible assets comprising purchased softwares are in the other intangible fixed assets. As of the balance sheet date, all softwares are purchased and there are no completed or continuing software development projects by the Bank.

	%
Intangible Assets	7-33

#### XII. Explanations on Tangible Fixed Assets

Tangible fixed assets are accounted for at acquisition cost less accumulated depreciation. Tangible fixed assets are depreciated with straight-line method. While those acquired before January 1, 2004 are depreciated with the rates valid in prior periods, the fixed assets acquired after January 1, 2004 are depreciated with the rates determined by the Ministry of Finance based on useful economic lives.

Depreciation of assets held less than one year as of the balance sheet date is accounted for proportionately. Depreciation method is not changed in the current period. The annual rates used, which approximate rates based on the estimated economic useful lives of the related assets, are as follows:

	%
Financial Lease	2-50
Furniture, fixtures and office equipment and others	6 – 35

Gain or loss resulting from disposals of the tangible fixed assets is reflected to the income statement as the difference between the net proceeds and net book value.

Normal maintenance and repair cost of the properties are expensed.

There is no pledge, mortgage, or any other lien on tangible fixed assets.

#### XIII. Explanations on Leasing Transactions

Tangible fixed assets acquired by financial leases are accounted for in accordance with TAS No:17. In accordance with this standard, the leasing transactions, which consist only foreign currency liabilities, are translated to Turkish Lira with the exchange rates prevailing at the transaction dates and they are recorded as an asset or a liability. The foreign currency liabilities are translated to Turkish Lira with the Bank's period end exchange rates. The increases/decreases resulting from the differences in the foreign exchange rates are recorded as expense/income in the relevant period. The financing cost resulting from leasing is distributed through the lease period to form a fixed interest rate.

In addition to the interest expense, the Bank records depreciation expense for the depreciable leased assets in each period.

Operating lease payments are recognized as expense in the income statement on a straight line basis over the lease term.

As of the balance sheet date, the Bank does not have authorization for any financial leasing transactions as lessor.

## Translated into English from the original Turkish report and financial statements

### **TURKLAND BANK ANONİM ŞİRKETİ** **NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)** **FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

#### **XIV. Explanations on Provisions and Contingent Liabilities**

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by using the Bank's best expectation of expenses in fulfilling the obligation, and discounted to present value if material.

According to the legal department of the Bank; the total number of ongoing cases against the Bank is 67. The total amount of those cases consists of TRY 1,223, USD 1,604 Thousand and EUR 193 Thousand. There is a provision of TRY 1,589 in the accompanying financial statements for these cases (December 31, 2014: TRY 1,762).

#### **XV. Explanations on Liabilities Regarding Employee Benefits**

##### *Defined Benefit Plans*

In accordance with existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities over a 30 day salary to each employee who has completed over one year of service, whose employment is terminated due to retirement or for reasons other than resignation or misconduct. The Bank is also required to make a payment for the period of notice calculated over each service year of the employee whose employment is terminated for reasons other than resignation or misconduct. Total benefit is calculated in accordance with TAS No:19 "Turkish Accounting Standard on Employee Benefits".

Such benefit plans are unfunded since there is no funding requirement in Turkey. The cost of providing benefits to the employees for the services rendered by them under the defined benefit plan is determined by independent actuaries annually using the projected unit credit method. As per the Official Gazette No. 28585 dated 12 March 2013 which came into effect on 1 January 2013 published the revised TAS 19 required actuarial gains/losses recognized shareholder equity. As of June 30, 2015, the actuarial gains recognized in equity amounts to TRY 161. (December 31, 2014: TRY (154) actuarial loss)

The Bank has no retirement fund or foundation that the employees are the member of.

##### *Defined Contribution Plans*

The Bank pays contributions to the Social Security Institution of Turkey on a mandatory basis. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due.

##### *Short-term Employee Benefits*

In accordance with TAS 19 "Turkish Accounting Standard on Employee Benefits"; defined liabilities that arise from unused leave payments are accrued in the related period and are not discounted.

#### **XVI. Explanations on Taxation**

##### *Corporate tax:*

According to the Article 32 of the Corporate Tax Law No 5520, accepted in the meeting of Grand National Assembly of Turkey (TBMM) on June 13, 2006 and announced in the Official Gazette dated June 21, 2006, the corporate tax rate has been decreased from 30% to 20%, effective from January 1, 2006 as per the Article 37 of the Corporate Tax Law.

The tax legislation, requires advance tax of 20% to be calculated and paid based on earnings generated for each quarter. Such advance taxes calculated and paid are offset against the final tax liability for the year.

Tax returns are required to be filed between the first and twenty-fifth day of the fourth month following the balance sheet date and paid in one installment until the end of the related month.

## Translated into English from the original Turkish report and financial statements

### **TURKLAND BANK ANONİM ŞİRKETİ** **NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)** **FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

#### **XVI. Explanations on Taxation (Continued)**

According to the Corporate Tax Law, tax losses can be carried forward for a maximum period of five years following the year in which the losses are incurred. Tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

The Bank makes necessary provisions over results of current period operations related with Income Tax and Corporate Tax liabilities. The Bank has TRY 452 tax provision in current period (December 31, 2014: TRY 12,979).

#### *Deferred Tax Liability / Asset:*

The Bank calculates and reflects deferred tax asset or liability on timing differences which will result in taxable or deductible amounts in determining taxable profit of future periods.

In accordance with TAS No: 12 "Turkish Accounting Standard on Income Taxes" and the circular of BRSA numbered BDDK.DZM.2/13/1-a-3 dated December 8, 2004, the Bank calculates deferred tax asset on carryforward tax losses and all deductible temporary differences except for general loan reserves, if sufficient taxable profit in future periods to recover such amounts is probable; as well as deferred tax liability on all taxable temporary differences. Deferred tax assets and liabilities are reflected in the accompanying financial statements on a net basis.

The deferred tax resulting from differences related to items that are debited or credited directly to equity is netted with these accounts.

Furthermore, as per the above circular of BRSA, deferred tax benefit balance resulting from netting of deferred tax assets and liabilities should not be used in dividend distribution and capital increase.

The net deferred tax asset is included in deferred tax asset and the net deferred tax liability is reflected under deferred tax liability on the balance sheet. The deferred tax expense recorded under the tax provision expenses amounts to TRY 5,950 in the accompanying income statement (December 31, 2014: TRY 4,668 deferred tax income).

#### **XVII. Additional Explanations on Borrowings**

The borrowing costs related to purchase, production, or construction of qualifying assets that require significant time to be prepared for use and sale are included in the cost of assets until the relevant assets become ready to be used or to be sold. Financial investment income obtained by temporary placement of undisbursed investment loan in financial investments is offset against borrowing costs qualified for capitalization.

All other borrowing costs are recorded to the income statement in the period they are incurred.

The Bank has not issued convertible bonds.

#### **XVIII. Explanations on Issued Share Certificates**

The Bank does not have any issued debt securities. As of the date of approval of these financial statements, there is no subsequent dividend announcement of the Bank.

#### **XIX. Explanations on Acceptances**

Acceptances are realized simultaneously with the payment dates of the customers and they are presented as probable commitments in off-balance sheet accounts.

#### **XX. Explanations on Government Incentives**

There are no government incentives utilized by the Bank.

**SECTION FOUR**

**INFORMATION ON FINANCIAL STRUCTURE**

**I. Explanations Related to the Capital Adequacy Standard Ratio**

The method used for risk measurement in determining capital adequacy standard ratio : The capital adequacy ratio is calculated in accordance with the “Regulation Regarding the Measurement and Evaluation of Banks’ Capital Adequacy Ratio” (the “Regulation”) published in the Official Gazette No. 29111 as of September 6, 2014 and “Regulation Credit Risk Mitigation Techniques” and “Regulation on calculation of Risk-Weighted Amounts of Securitizations” and also “Regulation Regarding Banks’ Shareholders’ Equity” published in the Official Gazette No. 28756 dated September 5, 2013 . The Bank’s capital adequacy ratio in accordance with the related communiqué is 17.21% as of June 30, 2015 (December 31, 2014: 18.52%).

The Bank manages its capital assessment under integrated and structured style. The Bank under internal capital assessments manages its maximum loss exposures that may arise from credit, operation, market and other risks taking into consideration the market developments with stress tests approach. Such stress test analysis are reviewed independently.

In the computation of capital adequacy standard ratio, the information prepared in accordance with statutory accounting requirements is used. Additionally, the market risk amount is calculated in accordance with the communiqué on the "Measurement and Assessment of Capital Adequacy of Banks" and is taken into consideration in the capital adequacy standard ratio calculation.

In the computation of credit risk amount, the bank classifies its loans in relevant risk weighted assets taking into considerations its risk class, ratings and the remaining risk mitigating items. In taking into consideration of risk mitigation items, comprehensive financial collateral method is used.

The values deducted from the capital base in the shareholders’ equity computation are excluded while calculating credit risk-weighted assets, non-cash loans and contingent liabilities. Assets subject to depreciation and impairment among risk-weighted assets are included in the calculations over their net book values after deducting the relative depreciations and provisions.

While calculating the basis of non-cash loans and transactions regarding with foreign currency and interest rates subject to credit risk, the net receivable amount from the counter parties net of provision amount set in accordance with the “Communiqué on Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” is multiplied by the loan conversion rates presented in the Article 5, the Clause 3 of the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", and calculated by applying the risk weights presented in the Capital Adequacy Analysis Form.

Counterparty credit risk calculations are calculated in accordance with Fair Value Valuation Method defined in the Article 5 of regulations.

In the calculation of the value at credit risk for the derivative financial instruments and credit derivatives, the receivables from counterparties are multiplied by the rates stated in the Regulation, reduced as per the “Regulation on Credit Risk Mitigation Techniques” and then included in the relevant exposure category defined in Regulation.

**Information related to the management of internal capital**

Internal Capital Adequacy Assessment Process (ISEDES/ ICAAP) is a process or the processes as a whole which allows senior management to;

- to identify, measure, consolidate and monitor the correct and adequate levels of risks,
- to calculate and gain the necessary internal capital which will be determined according to the Bank's risk profile, strategies and operational plan
- to have strong risk management systems to be used, and their continuous development facility

The Bank composes "ISEDES Report" in line with the "Banks' Internal Systems and Internal Capital Adequacy Assessment Process" published in the Official Gazette on 11 July 2014 and started to report to BRSA (communiqué No: 29057).

Risk Management Group is responsible for capital management process involving creation of Bank policies, processes, methods and systems which are about ISEDES and compliance with statutory capital requirements regulations. This process is also involves statutory and economic capital requirement calculations, forecasting and analyzing as required by the Bank's annual and long-term business plans.

Within internal capital management scope, the Bank has established a stress test based management by taking into account the estimated maximum loss amount that may occur in credit, operational, market and other risks as well as the changes in the market. Stress test and scenario analysis results are reported on a daily, weekly and quarterly basis by Risk Management Group.

## Translated into English from the original Turkish report and financial statements

### TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED JUNE 30, 2015

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

Capital adequacy ratio is calculated by Risk Management Group on a monthly basis, when requested by Senior Management capital requirement according to strategic plans is explained and studies on internal capital management is conducted. Capital requirement internal assessment process is designed and conducted by Risk Management Group. Risk Management Group informs Senior Management about these issues directly or through High Level Risk Committee.

#### II. Explanations Related to Credit Risk

Credit risk is the risk that the Bank is a party in a contract whereby the counterparty fails to meet its obligation and cause to incur a financial loss.

The credit allocation is performed on a debtor and a debtor group basis within the limits and updated on a defined frequency based on market developments. In the credit allocation process, many financial and non-financial criteria are taken into account within the framework of the internal rating procedures of the Bank. These criteria include geographical and sector concentrations. The sector concentrations for loans are monitored closely. In accordance with the Bank's loan policy, the rating of the companies, credit limits and guarantees are considered together, and credit risks incurred are monitored.

Risks and limits related to treasury activities and customer based commercial activities are monitored daily. Moreover, the limits of the correspondent banks that are determined by their ratings and the control of the maximum acceptable risk level in relation to the equity of the Bank are monitored daily. Risk limits are determined in connection with these daily transactions, and risk concentration is monitored systematically concerning off-balance sheet operations.

The credit worthiness of the debtors of the loans and other receivables is monitored regularly as prescribed in the Communiqué on "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves". Most of the statement of accounts for the loans has been tried to derive from audited financial statements. The unaudited documents result from the timing differences between the loan allocation and the audit dates of the financial statements of the companies and subsequently the audited financial statements are obtained from the companies when the companies are audited. Credit limits are determined according to the audited statement of accounts, and guarantee factors are developed in accordance with the decision of the credit committee considering the characteristics of the transactions and the financial structures of the companies.

**TURKLAND BANK ANONİM ŞİRKETİ**  
**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

The Bank uses 3 main factors for internal credit rating system. These are financial data, non-financial data and specialist decisions. Financial data consist of liquidity, financial structure, profitability, growth ratios and turnover rate. Non financial data consist of loan client business, relation with finance sector and sector analysis. The Bank measures the credit rating of companies by making comparisons regarding the financial data and non financial-data.

In the existing rating system, the collateral assigned to loans are not taken into account in the rating. The information about customers with F, E and D- rating is shown below.

**“F” rating;**

Number of clients with “F” rating is 3 with an outstanding risk of TRY 1,130 (December 31, 2014 : TRY 2,251; 7 client). 2 of these clients are granted against mortgage with outstanding risk of TRY 1,034 and covers 92% of total risk (December 31, 2014: 2 clients, 51%), One of these clients are granted against customer check with outstanding risk of TRY 17 and covers 1.5% of total risk (December 31, 2014: 2 clients, 37%).

**“E” rating;**

Number of clients with “E” rating is 36 and total outstanding risk is TRY 142,881 (December 31, 2014 : TRY 93,262; 37 clients). 10 of these clients are granted against mortgage with outstanding risk of TRY 88,669 and covers 62% of total “E” Rating Risk (December 31, 2014 : TRY 24,873 TL, 27%). 11 of these clients are granted against Customer Check/Note with outstanding risk of TRY 14,565 and covers 10% of total “E” Rating Risk (December 31, 2014 : TRY 16,756; 18%). One of these clients are granted against assignment with outstanding risk of TRY 14,520 and covers 10% (December 31, 2014 : TRY 17,907 TL, 19%). Moreover, parent company of 15 clients, which have risk of TRY 34,323 have ratings of A+ and C- and above (ratio is 24%) (December 31, 2014: 10%).

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

#### **II. Explanations Related to Credit Risk (continued)**

##### **“D-” rating;**

Number of clients with D- rating is 78 and total outstanding risk is TRY 185,681(December 31, 2014 : TRY 200,638, 80 clients).Clients granted against mortgage have outstanding risk of TRY 102,917and covers55% (40 clients) of total “D-” Rating Risk (December 31,2014 : TRY 95,841; 48%).

30 of these clients are granted against Customer check/note with outstanding risk of TRY 35,640and covers19.2% of total “D-” Rating Risk. (December 31,2014 : TRY 48,151, 24%). One of these clientsare granted against note have outstanding risk TRY 4,583and covers 2% (December 31,2014 : - ).

Moreover, parent company of 20 clients, which have risk of TRY 53,874, have ratings of C- and above (ratio is 29%)(December 31,2014:2%).

There is no financial assets at fair value through profitted losswhose terms have been renegotiated .

#### **III. Explanations Related to Market Risk**

The Bank has established market risk management operations and taken the necessary precautions in order to hedge market risk within its financial risk management purposes, in accordance with the Communiqué on “Measurement and Assessment of Capital Adequacy of Banks” which was published in the Official Gazette on September 6, 2014 numbered 29111 and September 5, 2013 numbered 28756 “Regulation Regarding Banks’ Shareholders’ Equity”.

The Board of Directors determines the limits for the basic risk that the Bank is exposed to. Those limits are revised periodically in line with the market forces and strategies of the Bank. Additionally, the Board of Directors has ensured that the risk management division and senior management has taken necessary precautions to describe, evaluate, control and manage risks faced by the Bank.

The bank measures its value at risk of its portfolio using forecasted volatility and yield curve model supported by stress tests and scenario analysis. The purpose of VAR is to define the maximum risk the bank is exposed to. The Bank uses parametric, historical simulation and Monte Carlo methods by considering maximum loss which the bank suffers for predictions. The bank calculates the risk on the portfolio held by the Bank for the amount of loss resulting from excessive fluctuations in the market with stress test and scenario analysis. The ways of self-protection is determined by the Bank taking the portfolio into the consideration in case the volatility is repeated and various different crisis takes place. For market risk, analysis is performed by comparing the standard method with VAR.

The risks of on-balance sheet and off-balance sheet accounts positions depending on fluctuations in the financial markets are measured by the bank. Information regarding market risk which has taken into account in the calculation of the regulatory capital is presented below:

##### Quantitative Counterparty Risk Information

For counterparty credit risks, limits are set by Board of Directors. Counterparty credit risk is managed by the Financial Institutions Department of the Bank by taking into account the counterparty's financial reports, general overview, rating, current and expected transaction volumes with the Bank. Within the scope Regulation on the Internal Systems of Banks and Regulation on Measurement and Assessment of Capital Adequacy of Bank's and "Regulation on the Internal System of Bank's, published in the Official Gazette No. 29111 dated September 6, 2014, "Counterparty Credit Risk Management Policy" is formed, then approved by the Board of Directors and published in the Bank. Limits are defined by Board of Directors and controlled daily and reported to the Bank. In addition to that, related current limits are taken into capital accounts.

##### Other price risks:

The Bank does not invest in share certificates quoted on a stock exchange hence it is not subject to share price risk.

#### V. Explanations Related to Currency Risk

Foreign currency risk indicates the probability of loss that banks are subject to due to the exchange rate movements in the market. While calculating the share capital requirement, all foreign currency assets, liabilities and forward transactions of the Bank are taken into consideration and value at risk is calculated by using the standard method.

The Board of Directors sets limits for the positions and stop losses which are followed up daily and weekly. Any possible changes in the foreign currency transactions in the Bank's positions are also monitored.

The announced current foreign exchange buying rates of the Bank at June 30, 2015 and the previous five working days in full TRY are as follows (Bank's FC evaluation rates):

	23June 2015	24June 2015	25June 2015	26June 2015	29June 2015	30June 2015

**V. Explanations Related to Currency Risk (continued)**

**Foreign currency sensitivity:**

The Bank holds EUR and USD currencies positions mainly.

The following table details the Bank's sensitivity to a 10% increase or decrease in the TRY against USD and EUR. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. Positive/(Negative) number indicates a change in profit or loss and other equity where USD and EUR increase 10% against TRY.

	Change in currency rate in %	Effect on profit or loss		Effect on equity	
		June 30, 2015	December 31, 2014	June 30, 2015	December 31, 2014

EUR	%10 decrease	54	51	-	-
Other Currency	%10 increase	114	145	-	-
Other Currency	%10 decrease	(114)	(145)	-	-

**VI. Explanations Related to Interest Rate Risk**

Interest rate risk shows the probability of loss related to the changes in interest rates depending on the Bank's position, and it is managed by the Asset-Liability Committee. The interest rate sensitivity of assets, liabilities and off-balance sheet items related to this risk are measured by using the standard method and included in the market risk for capital adequacy.

Risk Department performs duration, maturity and sensitivity analysis to protect the effect of interest rate volatility and reported to the Asset-Liability Committee.

Simulations on interest income are performed in connection with the forecasted economic indicators used in the budget of the Bank. The negative effects of the fluctuations in the market interest rates on the financial position and the cash flows are minimized by revising budgeted targets.

The Bank management follows the market interest rates daily and revises the interest rates of the Bank whenever necessary.

Since the Bank does not permit maturity mismatches or imposes limits on mismatch, a significant interest rate risk exposure is not expected.

## Translated into English from the original Turkish report and financial statements

### TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED JUNE 30, 2015

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

#### VI. Explanations Related to Interest Rate Risk (continued)

Nature of interest rate risk resulted from banking book, major assumptions includes also assumption on early repayment of loans and movements in deposits other than term deposits and frequency of measuring interest rate risk.

With the exception of items included under on trading accounts, and items which are other than subordinated debts considered on equity accounts in accordance with "Regulation on Equity of Banks" which have been published on the Official Gazette dated September5, 2013 numbered 28756, the interest rate risk for all on-balance sheet and off-balance sheet items, which are interest sensitive, and for banking accounts has been calculated. In calculation of interest rate risk, the bank has no any assumptions for early repayment of loans and demand deposits. Interest rate risk arising from banking accounts is calculated and is reported to BRSA monthly.

**Economic value differences resulted from interest rate instabilities calculated according to Regulation on Measurement and Evolution of Interest Rate Risk Resulted from Banking Book as per Standard Schock Method.**

Unit of Currency	Applicable Shock (+ / - base point)*	Profit/ Loss	Profit / Equity Capital – Loss / Equity Capital
TRY	500	(58,852)	(%8)
	(400)	53,756	%7
EUR	200	(2,824)	(%0)
	(200)	3,046	%0
USD	200	(9,828)	(%1)
	(200)	10,726	%1
<b>Total (For Negative Shock)</b>		<b>67,528</b>	<b>%9</b>
<b>Total (For Positive Shock)</b>		<b>(71,504)</b>	<b>(%9)</b>

\* The intensity and direction of a currency different rows are entered separately for each shock.

#### Interest rate sensitivity:

If interest rates had been increased by 0.5% in TRY and by 0.5% in FC and all other variables were held constant, the Bank's:

- Net profit would change by TRY 8,491. The change in profit mainly is related to loans and deposits (December 31, 2014 : TRY 7,074).
- Possible changes in the interest rates effects the equity as a result of the revaluation of the available-for-sale assets decreases equity by TRY 236 (December 31,2014: TRY 233).

#### VII. Explanations Related to Liquidity Risk

Liquidity risk occurs when there is insufficient cash or cash inflows to meet the cash outflows completely and timely.

Liquidity risk may also occur when the market penetration is not adequate, when the open positions cannot be closed quickly at suitable prices and sufficient amounts due to barriers and break-ups at the markets.

The Bank's policy is to establish an asset structure that can meet all kinds of liabilities by liquid sources at all times. In this context, liquidity problem has not been faced in any period. In order to maintain this, the Board of Directors of the Bank continuously determines standards for the liquidity ratios, and monitors them.

According to the general policies of the Bank, the matching of the maturity and interest rate structure of assets, and liabilities is always established within the asset liability management strategies. A positive difference is tried to be established between the yields of TRY and foreign currency assets and liabilities on the balance sheet and their costs. In this sense, various crisis scenarios which are prepared by risk management group are presented to management and audit committee.

Translated into English from the original Turkish report and financial statements

**TURKLAND BANK ANONİM ŞİRKETİ**  
**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

**VII. Explanations Related to Liquidity Risk (continued)**

When the funding and liquidity sources are considered, the Bank covers majority of its liquidity need by deposits, and in addition to this source, it makes use of pre-financing and syndication products to generate additional sources.

Bank calculated liquidity currency ratio in both foreign currency and total amounts per Basel III, and reported to BRSA according to "Bank's Regulation on Measurement and Evaluation of Liquidity Adequacy Ratio" which have been published by BRSA in 2014. Furthermore, liquidity risk analysis form is started to report weekly to BRSA by the Bank in 2013.

Liquidity coverage ratios are calculated weekly and monthly starting from January 1, 2015 as per "Regulation on Liquidity Coverage Ratio Calculation" published in the Official Gazette numbered 28948 dated March 21, 2014. Liquidity coverage ratios should be at least 40% for foreign currency denominated assets and liabilities and 60% for total assets and liabilities for 2015. Liquidity coverage ratios for the second quarter of 2015 are as follows:

Current Year- 30 June 2015	FC	FC+TRY
Average%	331.06	194.89

#### IX. Risk Management Objectives and Policies

The Bank's Risk Management Group depends on the board by the Member of Audit Committee have been responsible for the Audit, Internal Control and Risk Management.

The Bank implements the risk management policies in accordance with Basel Criteria and internalizes the participation of all Group member to the risk management. Objective of risk policies: In line with "Regulation on Internal Systems and Internal Capital Adequacy Assessment Process of Banks (published in the Official Gazette dated July 11, 2014 numbered 29057)", sustaining the Bank's operations in accordance with the Bank's strategic plans, mission, targets, profitability and productivity principles by determining Bank's risk strategy and maximum risk level in line with the volume, qualification and complexity of the Bank's operations by taking into consideration the Bank's past experience and performance. Moreover, ensuring to conserve the interests of depositors and the Bank's shareholder's interest at a maximum level.

A general strategy for the Bank's risk management is given below:

- To manage risks within Bank's risk profile in accordance with materiality, in an effective way,
- To manage risks from the first phase with the help of steering risk strategies, policies and procedures, models and parameters,
- To act in a risk-based management approach in the strategic decision making process,
- To fulfill Bank's legal obligations about risk management,

Actual Credit Policies provide inscriptive standards to investigate and control credit risk by determining rules to be monitoring exposed the Bank risk when granting loans and other commitments, to improve asset quality and to support effective risk management.

**TURKLAND BANK ANONİM ŞİRKETİ**  
**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE PERIOD ENDED JUNE 30, 2015**

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

**IX. Risk Management Objectives and Policies (continued)**

In order to manage operational risks that the Bank is exposed to more effectively and form an integrated risk management point of view, Operational Risk Policy and Data Management Procedure is published. IT Continuity Plan is updated periodically.

In order to define, measure, limit and report market risk the Bank is exposed to, Market Risk Policy is formed. When the Bank manages its treasury securities portfolio within the limits determined by the Board of Directors, Risk Management Group checks whether Treasury Department is within these risk limits.

In order to define, measure, follow, report the liquidity risk and take necessary actions for the results, Liquidity Risk Policy and Emergency Plan is formed. When Liquidity Risk Policy is formed, to manage the net liquidity position and liquidity requirement on an ongoing and forward-looking basis is aimed at.

Concentration Risk Management Policy is formed to define, measure, monitor and manage concentration risk. The concentration limits are monitored in accordance with the credit, deposit and other associated policies.

In order to ensure that the Bank's term deposit structure is in line with the Bank's strategies and budget targets and is in a robust and sustainable structure, Deposit Policy is formed. Policies and systems in order to define, measure and follow the concentration risk of the Bank's deposit is also explained in Deposit Policy.

Counterparty Risk Management Policy is formed to define, measure, monitor and manage counterparty risk. The concentration limits are monitored in accordance with the credit, deposit and other associated policies. Counterparty credit risk management is conducted by the Financial Institutions Department of the Bank by taking into account the counterparty's financial reports, general overview, rating, current and expected transaction volumes with T-Bank. The limits for counterparties are determined by the Board of Directors.

"Banking Book" includes all Assets and Liabilities (including credit) except trading securities portfolio. In order to define, measure, follow, report the interest rate risk related to banking book risk the Bank is exposed to and take necessary actions for the results, interest rate risk policy related to banking book is formed. Interest rate risk is managed by senior management in order to avoid losses from adverse interest rate movements.

Regarding internal assessment process (ISEDES / ICAAD) which aims at the Bank has capital requirement according to its risk profile, Internal Capital Management Procedure is formed. Within internal capital management scope, the Bank has established a stress test based management by taking into account the estimated maximum loss amount that may occur in credit, operational, market and other risks as well as the changes in the market.

<b>Total</b>	<b>35,191</b>	<b>32,370</b>

b) Foreign exchange losses on the foreign currency indexed loans and finance lease receivables: The foreign exchange losses amounting to TRY 785(December 31, 2014: TRY2,220) on the foreign currency indexed loans are netted off from loans on the balance sheet.

c) The specific provisions of TRY 8,106(December 31, 2014: TRY 8,226) were provided for unindemnified non cash loans.

d) Information on employee termination benefits and unused vacation accrual:

The Bank has calculated the reserve for employee termination benefits by using actuarial valuation methods as set out in the TAS 19 and reflected this in the financial statements.

d.2) Information on employee termination benefits and unused vacation accrual:

Bank has calculated the reserve for employee termination benefits by using actuarial valuation methods as set out in the TAS 19 and reflected this in the financial statements.

	<b>June 30, 2015</b>	<b>December 31, 2014</b>
Employee termination benefit provision	7,717	7,153
Unused vacation provision	4,126	3,376
<b>Total of provision for employee benefits</b>	<b>11,843</b>	<b>10,529</b>

In accordance with TAS 19 “Turkish Accounting Standard on Employee Benefits”; total benefit is calculated for each employee who has completed over one year of service, whose employment is terminated due to retirement or for reasons other than resignation or misconduct. The cost of providing benefits to the employees for the services rendered by them under the defined benefit plan is determined by independent actuaries annually using the projected unit credit method. All actuarial gains and losses are recognized in the income statement. According to communique numbered 28585 published in Turkish Trade Registry Gazette, as per TAS19 actuarial gain that is recorded under shareholders’ equity amounting to TRY 161 as of June 30, 2015. (December 31, 2014: TRY (154) loss)

Preferred stock	-	-

(\*) Nominal Capital

b) The Bank does not apply registered share capital system.

c) Information on share capital increases and their sources; other information on increased capital shares in the current period: Explained in a) section.

d) Information on share capital increases from revaluation funds in the current period: None.

e) Capital commitments in the last fiscal year and at the end of the following interim period, the general purpose of these commitments and projected resources required to meet these commitments: None.

f) Indicators of the Bank's income, profitability and liquidity for the previous periods and possible effects of these future assumptions on the Bank's equity due to the uncertainty of these indicators:

Prior year income, profitability and liquidity of the Bank is closely monitored by the Financial Reporting Department and reported to the Board of Directors, Asset and Liability Committee. Risk Management tries to forecast the effects of interest, currency and maturity fluctuations that change these indicators with static and dynamic scenario analysis. Net asset value, which is defined as the difference of fair values of assets and liabilities, is measured. Expectations are made for Bank's future interest income via simulations of net interest income and scenario analysis.
