# TURKLAND BANK ANONİM ŞİRKETİ

# INDEPENDENT AUDITOR'S LIMITED REVIEW REPORT, UNCONSOLIDATED FINANCIAL STATEMENTS AND NOTES FOR THE PERIOD ENDED MARCH 31, 2011

Translated into English from the original Turkish report and financial statements

#### Turkland Bank Anonim Şirketi

Independent auditor's limited review report for the period ended March 31, 2011

To the Board of Directors of Turkland Bank Anonim Şirketi

We have reviewed the accompanying balance sheet of Turkland Bank Anonim Şirketi ("The Bank") as at March 31, 2011 and the related statements of income, changes in shareholders' equity and cash flows for the period then ended. These financial statements are the responsibility of the Bank's management. As independent auditors our responsibility is to issue a report on these financial statements based on our review.

We conducted our review in accordance with the accounting rules and policies, and the accounting and auditing standards, set out as per the Banking Act No: 5411. Those standards require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. A review consists of making inquires, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial statements do not give a true and fair view of the financial position of the Bank as of March 31, 2011, and of the results of its operations and its cash flows, for the period then ended in accordance with the prevailing accounting principles and standards set out as per the Article No: 37 of the Banking Act No: 5411, and other regulations, communiqués, circulars and pronouncements made by the Banking Regulation and Supervision Agency in respect of accounting and financial reporting.

Additional paragraph for English translation:

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

Güney Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik Anonim Şirketi A member firm of Ernst&Young Global Limited

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# **SECTION ONE**

# **GENERAL INFORMATION**

# I. Bank's Incorporation Date, Beginning Statue, Changes in the Existing Statue

Turkland Bank Anonim Şirketi ("the Bank"), was established in 1991 in İstanbul under the name of "Bahreyn ve Kuveyt Bankası Anonim Şirketi" (BB&K). Its name was changed as "Tasarruf ve Kredi Bankası Anonim Şirketi" with its acquisition by Doğuş Group in 1992. After the change in the name of the bank as "Garanti Yatırım ve Ticaret Bankası Anonim Şirketi" in 1994, Mehmet Nazif Günal (the main shareholder of MNG Group Companies) has acquired the Bank in 1997 and the name of the Bank has been changed as "MNG Bank Anonim Şirketi".

An agreement has been made with Arab Bank and BankMed for the sale of 91% of MNG Bank's shares in mid of 2006 and this agreement was approved by Banking Regulation and Supervision Agency (BRSA) on December 29, 2006. In this regard, while Arab Bank and BankMed purchasing 50% and 41% of MNG bank shares respectively, Mehmet Nazif Günal retained 9% of the shares. Transfer of the Bank was made on January 29, 2007. The title of the Bank was changed as "Turkland Bank Anonim Şirketi" with the amendment to the Articles of Association by the decision of the Extraordinary General Assembly at the meeting on March 22, 2007.

On April 3, 2007, "MNG BANK Anonim Şirketi" title of the bank was registered as "TURKLAND BANK Anonim Şirketi".

According to the Share Sale and Purchase Agreement and Board of Directors' Decision dated February 26, 2010 and July 15, 2010 respectively, Mehmet Nazif Günal's 153 million shares with TRY 15,300 thousand nominal value were purchased by BankMed SAL. As of July 22, 2010 the share transfer was realized.

# II. Explanations Regarding Bank's Shareholding Structure, Shareholders Holding Directly or Indirectly, Collectively or Individually, the Managing and Controlling Power and Changes in Current Year, if any and Explanations on the Controlling Group of the Bank

As of March 31, 2011, the shareholders' structure and their ownerships are summarized as follows:

# SECTION THREE

# **ACCOUNTING PRINCIPLES**

# I. Basis of Presentation

The Bank prepares financial statements and notes according to Communique on Banks' Accounting Practice and Maintaining Documents (published in the Official Gazette numbered 26333 dated November 1, 2006), Communiqué on Financial Statements to be Publicly Announced and the Related Policies and Disclosures (published in the Official Gazette numbered 26430 dated February 10, 2007), Turkish Accounting Standards (TAS), Turkish Financial Reporting Standards (TFRS), other regulations, communiques, circulars and pronouncements made by Banking Regulation and Supervision Agency (BRSA) in respect of accounting and financial reporting.

The accounting policies adopted in the preparation of the Bank's financial statements are consistent with the accounting policies adopted for financial statements dated December 31, 2010 and changes of TAS/TFRS that have come into effect as from January 1, 2011 (TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments, TFRIC 14 Prepayments of a Minimum Funding Requirement (Amended), TAS 32 Classification on Rights Issues (Amended), TAS 24 Related Party Disclosures (Revised)) do not have any effect on the accounting policies, financial position and performance of the Bank. These accounting policies and valuation principles are explained in Notes II to XXII.

Except for trading and available for sale assets and derivatives that are shown at fair values and derivatives, financial statements are prepared based on historical cost.

# **II.** Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions

The Bank focuses its activities in corporate banking. The primary objective of the Bank is to sustain liquidity while fulfilling customer needs. Thus, the Bank places approximately 20.29% of its resources in liquid assets, while the Bank also aims for the highest yield possible with effective maturity management.

Besides its principle activity, the main financial instruments of the Bank are money market placements, treasury bills and government bonds.

Marketable securities comprising 17.09% of total assets are assets with low risk and high yield. Placements in domestic banks and abroad are 5.12% of the total assets and these assets provide liquidity with low risk and yield.

The Bank aims at creating an optimum maturity risk and working with a positive margin between cost of resource and product yield in the process of asset and liability management.

As a component of the risk management strategy of the Bank, the management of risk bearing short positions of currency, interest or price movements is performed only by the Treasury and using the limits defined by the Board of Directors.

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# **III.** Explanations on Forward and Option Contracts and Derivative Instruments

The Bank's derivative instruments consist of foreign currency swaps and forward foreign currency buy/sell transactions. Derivative instruments are accounted for at their fair values as of the contract date and subsequently valued at fair value. Certain derivative instruments, although economical hedges, are accounted as trading transactions since they are not qualified to be a hedging instrument as per "Financial Instruments: Recognition and Measurement" ("TAS 39"). Realized gains or losses on these instruments are reflected in the statement of income. Unrealized gains or losses arising from the change in the fair value are recorded in disallowable expenses or income according to the current tax legislation.

Contract amounts of derivatives are recorded in off the balance sheet contingencies and commitments.

There are no embedded derivatives separated from the host contract or that are designated as hedging instruments as of the balance sheet date.

# IV. Explanations on Interest Income and Expenses

Interest income and expenses are recognized in the income statement on an accrual basis using the effective interest method. In accordance with the regulation on Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves published in the Official Gazette numbered 26333 dated November 1, 2006, interest accruals of the non-performing loans are reversed and interest income related to these loans is recorded as interest income only when collected.

# V. Explanations on Fees and Commission Income and Expenses

Fees for various banking services are recorded as income when collected.

# VI. Explanations on Financial Assets

Financial instruments comprise financial assets, financial liabilities and derivative instruments. Financial instruments affect liquidity, market, and credit risks on the Bank's balance sheet in all respects. Bank trades these instruments on behalf of its customers and on its own behalf.

Basically, financial assets create the majority of the commercial activities and operations of the Bank. These instruments expose, affect and diminish the liquidity, credit and interest risks in the financial statements.

All regular way purchases and sales of financial assets are recognized on the settlement date. The settlement date is the date that the asset is delivered to or by the Bank. Settlement date accounting requires (a) accounting of the asset when acquired by the institution and (b) disposing of the asset out of the balance sheet on the date settled by the institution; and accounting of gain or loss on disposal. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted for in the same way as the acquired assets.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

The methods and assumptions used in the recognition and measurement of financial instruments are mentioned below.

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

#### VI. **Explanations on Financial Assets (continued)**

#### Cash, Banks, and Other Financial Institutions

Cash and cash equivalents comprise cash on hand, demand deposits, and highly liquid short-term investments with maturity of 3 months or less following the purchase date, not bearing risk of significant value change, and that are readily convertible to a known amount of cash and are carried at amortized cost. The book values of these assets approximate their fair values.

# Financial Assets at Fair Value Through Profit and Loss

Trading securities are securities which were either acquired for generating a profit from short-term fluctuations in price or dealer's margin, or are securities included in a portfolio with a pattern of short-term profit taking.

Trading securities are initially recognized at cost (which represents the fair value at the time). The positive difference between the cost and fair value of such securities in the accounts is accounted for as interest and income accrual, and the negative difference is accounted for as "Impairment Provision on Marketable Securities".

### Held to Maturity Investments, Financial Assets Available for Sale and Loans

Investments held to maturity include securities with fixed or determinable payments and fixed maturity where there is an intention of holding till maturity and the relevant conditions for fulfillment of such intention, including the funding ability and excluding loans and receivables.

Held to maturity investments are initially recorded at cost including transactions costs. After initial recognition held to maturity investments are measured at amortized cost by using effective interest rate less impairment losses, if any.

The interests received from held to maturity investments are recorded as interest income.

#### Financial Assets Available for Sale

Available for sale financial assets include all securities other than loans and receivables, securities held to maturity and securities held for trading.

The marketable securities are initially recognized at cost including the transaction costs (which represents the fair value at the time).

After the initial recognition, available for sale securities are measured at fair value and the unrealized gains/losses originating from the difference between the amortized cost and the fair value is recorded in "Marketable Securities Value Increase Fund" under the equity. Fair values of debt securities that are traded in an active market are determined based on quoted prices or current market prices. In the absence of prices formed in an active market, fair values of these securities are determined by using other valuation methods stated in TAS.

The Bank has an equity investment with participation rate of 0.0025% in the available for sale financial assets portfolio. Since this equity investment does not have fair value, it is carried at cost.

The Bank classifies its securities as referred to above at the acquisition date of related assets.

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# VI. Explanations on Financial Assets (continued)

### Loans

Loans are non-derivative financial assets which have fixed or determinable payments and are not traded.

The Bank initially records loans and receivables at fair value. In subsequent periods, in accordance with TAS, loans are measured at amortized cost using effective interest rate method.

Foreign currency indexed loans are converted into TRY from the foreign currency rate as of the opening date and followed in TRY accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the statement of income.

Foreign exchange gains and losses on the foreign currency indexed loans are presented under foreign exchange gains and losses.

### VII. Explanations on Impairment of Financial Assets

At each balance sheet date, the Bank evaluates the carrying amounts of its financial asset or a group of financial assets to determine whether there is an objective indication that those assets have suffered an impairment loss. If any such indication exists, the Bank determines the related impairment.

A financial asset or a financial asset group incurs impairment loss only if there is an objective indicator related to the occurrence of one or more than one event ("loss event") after the first journalization of that asset; and such loss event (or events) causes, an impairment as a result of the effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group. Irrespective of high probability the expected losses for future events are not journalized.

Specific reserves are provided for non performing loans in accordance with the regulation on "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" published in the Official Gazette No. 26333 dated November 1, 2006 which was amended with communiqué published in the Official Gazette No. 27119 dated January 23, 2009. In this context, the management estimates are determined, on the basis of the Bank credit risk policies, considering the general structure of the loan portfolio, the financial conditions of the customers, non-financial information and the economic conjuncture. These provisions are reflected in the income statement under "Provision and Impairment Expenses - Special Provision Expense".

The collections made related to loans for which provision is made in the current period are reversed from the "Provision for Loans and Other Receivables" account in the income statement. The collections made related to loans written off or provisioned in prior years are recorded to "Collections Related to the Prior Period Expenses" under "Other Operating Income" account and related interest income is credited to the "Interest Received from Non-performing Loans" account.

In addition to specific loan loss provisions, within the framework of the regulation and principles referred to above; Bank records general loan loss provisions for loans and other receivables. Bank calculated the general loan provision as 0.5% for cash loans and other receivables, and 0.1% for non-cash loans until November 1, 2006. Subsequent to the change in the regulation on "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" published in the Official Gazette No. 26333 dated November 1, 2006; Bank started to book general loan loss provision of 1% for cash loans and other receivables; and 0.2% for non-cash loans on the increase in the cash and non-cash loan portfolio as compared to their October 31, 2006 balances whereas allocating 0.5% general loan loss provision for cash loans and other receivables, and 0.1% for non-cash loans for the balances as of October 31, 2006. Together with the change in the same regulation made on February 6, 2008, the Bank started to book general loan loss provision of 2% for cash loans under watch-list and 0.4% for non-cash loans under watch-list. On January 23, 2009 the Article 7 of the regulation has been amended such that the specified rates are applied at one fourth for payment commitments for checks related to checkbooks extended five years ago or earlier.

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# VIII. Explanations on Offsetting of Financial Assets and Liabilities

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and the intention of collecting or paying the net amount of related assets and liabilities or the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

# IX. Explanations on Sales and Repurchase Agreements and Lending of Securities

The sales and purchase of government securities under repurchase agreements made with the customers are being recorded in balance sheet accounts in accordance with the Uniform Chart of Accounts. Accordingly in the financial statements, the government bonds and treasury bills sold to customers under repurchase agreements are classified under securities held for trading, available for sale and held to maturity depending on the portfolio they are originally included in and are valued according to the valuation principles of the related portfolios. Funds obtained from repurchase agreements are classified as a separate sub-account under money markets borrowings account in the liabilities. These transactions are short-term and consist of domestic public sector debt securities.

The income and expenses from these transactions are reflected to the "Interest Income on Marketable Securities" and "Interest Expense on Money Market Borrowings" accounts in the income statement.

As of March 31, 2011, the Bank does not have any reverse repo transactions. (December 31, 2010: TRY 14,003 Thousand).

As of March 31, 2011, the Bank does not have any marketable securities lending transaction. (December 31, 2010: None).

# X. Explanations on Assets Held for Sale and Discontinued Operations

Assets held for sale with high probability of sale, are those under a plan prepared by the management regarding the sale of the asset to be disposed (or else the group of assets), together with an active program for determination of buyers as well as for the completion of the plan. Also the asset (or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or canceling the plan is low.

The Bank does not have any assets held for sale as of March 31, 2011 (December 31, 2010: None).

A discontinued operation is a division of a bank that is either disposed or held for sale. Results of discontinued operations are included in the income statement separately. The Bank does not have any discontinued operations.

# XI. Explanations on Goodwill and Other Intangible Assets

There is no goodwill regarding the investments in associates and subsidiaries.

Other intangible assets are accounted for at cost less accumulated amortization. Other intangible assets are amortized with straight-line method based on their economic lives. There is no change in the amortization method in the current period.

The intangible assets comprising purchased softwares are in the other intangible fixed assets. As of the balance sheet date, all softwares are purchased and there are no completed or continuing software development projects by the Bank.

TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# XII. Explanations on Tangible Fixed Assets

Tangible fixed assets are accounted for at acquisition cost less accumulated depreciation. Tangible fixed assets are depreciated with straight-line method. While those acquired before January 1, 2004 are depreciated with the rates valid in prior periods, the fixed assets acquired after January 1, 2004 are depreciated with the rates determined by the Ministry of Finance based on useful economic lives.

Depreciation of assets held less than one year as of the balance sheet date is accounted for proportionately. Depreciation method is not changed in the current period. The annual rates used, which approximate rates based on the estimated economic useful lives of the related assets, are as follows:

	%
Motor vehicles	20
Furniture, fixtures and office equipment and others	3 - 50

Gain or loss resulting from disposals of the tangible fixed assets is reflected to the income statement as the difference between the net proceeds and net book value.

Normal maintenance and repair cost of the properties are expensed.

There is no pledge, mortgage, or any other lien on tangible fixed assets.

# XIII. Explanations on Leasing Transactions

Tangible fixed assets acquired by financial leases are accounted for in accordance with TAS No:17. In accordance with this standard, the leasing transactions, which consist only foreign currency liabilities, are translated to Turkish Lira with the exchange rates prevailing at the transaction dates and they are recorded as an asset or a liability. The foreign currency liabilities are translated to Turkish Lira with the Bank's period end exchange rates. The increases/decreases resulting from the differences in the foreign exchange rates are recorded as expense/income in the relevant period. The financing cost resulting from leasing is distributed through the lease period to form a fixed interest rate.

In addition to the interest expense, the Bank records depreciation expense for the depreciable leased assets in each period.

Operating lease payments are recognized as expense in the income statement on a straight line basis over the lease term.

As of the balance sheet date, the Bank does not have authorization for any financial leasing transactions as lessor.

# XIV. Explanations on Provisions and Contingent Liabilities

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by using the Bank's best expectation of expenses in fulfilling the obligation, and discounted to present value if material.

According to the legal department of the Bank; the total number of ongoing cases against the Bank is 79. The total amount of those cases consists of TRY 330 Thousand, USD 804 Thousand and EURO 299 Thousand. There is a provision of TRY 640 Thousand in the accompanying financial statements for these cases. (December 31, 2010: TRY 641 Thousand).

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# XV. Explanations on Liabilities Regarding Employee Benefits

#### Defined Benefit Plans

In accordance with existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities over a 30 day salary to each employee who has completed over one year of service, whose employment is terminated due to retirement or for reasons other than resignation or misconduct. The Bank is also required to make a payment for the period of notice calculated over each service year of the employee whose employment is terminated for reasons other than resignation or misconduct. Total benefit is calculated in accordance with TAS No:19 "Turkish Accounting Standard on Employee Benefits".

Such benefit plans are unfunded since there is no funding requirement in Turkey. The cost of providing benefits to the employees for the services rendered by them under the defined benefit plan is determined by independent actuaries annually using the projected unit credit method. All actuarial gains and losses are recognized in the income statement.

The Bank has no retirement fund or foundation that the employees are the member of.

# Defined Contribution Plans

The Bank pays contributions to the Social Security Institution of Turkey on a mandatory basis. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due.

### Short-term Employee Benefits

In accordance with TAS No:19 "Turkish Accounting Standard on Employee Benefits"; defined liabilities that arise from unused leave payments are accrued in the related period and are not discounted.

# XVI. Explanations on Taxation

#### *Corporate tax*

According to the Article 32 of the Corporate Tax Law No 5520, accepted in the meeting of Grand National Assembly of Turkey (TBMM) on June 13, 2006 and announced in the Official Gazette dated June 21, 2006, the corporate tax rate has been decreased from 30% to 20%, effective from January 1, 2006 as per the Article 37 of the Corporate Tax Law.

The tax legislation, requires advance tax of 20% to be calculated and paid based on earnings generated for each quarter. Such advance taxes calculated and paid are offset against the final tax liability for the year.

Tax returns are required to be filed between the first and twenty-fifth day of the fourth month following the balance sheet date and paid in one installment until the end of the related month.

According to the Corporate Tax Law, tax losses can be carried forward for a maximum period of five years following the year in which the losses are incurred. Tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

The Bank makes necessary provisions over results of current period operations related with Income Tax and Corporate Tax liabilities. The Bank does not have corporate tax provision in current period (December 31, 2010: TRY 972 Thousand ).

TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# **XVI.** Explanations on Taxation (continued)

# Deferred Tax Liability / Asset

The Bank calculates and reflects deferred tax asset or liability on timing differences which will result in taxable or deductible amounts in determining taxable profit of future periods.

In accordance with TAS No: 12 "Turkish Accounting Standard on Income Taxes" and the circular of BRSA numbered BDDK.DZM.2/13/1-a-3 dated December 8, 2004, the Bank calculates deferred tax asset on carryforward tax losses and all deductible temporary differences except for general loan reserves, if sufficient taxable profit in future periods to recover such amounts is probable; as well as deferred tax liability on all taxable temporary differences. Deferred tax assets and liabilities are reflected in the accompanying financial statements on a net basis.

The deferred tax resulting from differences related to items that are debited or credited directly to equity is netted with these accounts.

Furthermore, as per the above circular of BRSA, deferred tax benefit balance resulting from netting of deferred tax assets and liabilities should not be used in dividend distribution and capital increase.

The net deferred tax asset is included in deferred tax asset and the net deferred tax liability is reflected under deferred tax liability on the balance sheet. The deferred tax charge stated under the tax provision amounted to TRY 1,043 Thousand in the income statement (March 31, 2010: TRY 1,716 Thousand deferred tax charge).

# **XVII.** Additional Explanations on Borrowings

The borrowing costs related to purchase, production, or construction of qualifying assets that require significant time to be prepared for use and sale are included in the cost of assets until the relevant assets become ready to be used or to be sold. Financial investment income obtained by temporary placement of undisbursed investment loan in financial investments is offset against borrowing costs qualified for capitalization.

All other borrowing costs are recorded to the income statement in the period they are incurred.

The Bank has not issued convertible bonds.

# **XVIII.** Explanations on Issued Share Certificates

The Bank does not have any issued debt securities. As of the date of approval of these financial statements, there is no subsequent dividend announcement of the Bank.

# XIX. Explanations on Acceptances

Acceptances are realized simultaneously with the payment dates of the customers and they are presented as probable commitments in off-balance sheet accounts.

# **XX.** Explanations on Government Incentives

There are no government incentives utilized by the Bank.

# XXI. Explanations on Segment Reporting

Since the Bank is not listed, disclosure requirements of TFRS 8 are not applicable for the Bank.

TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# XXII. Explanations on Other Matters

None, other than above explanations.

### Explanation for convenience translation to English

The accounting principles used in the preparation of the accompanying financial statements differ from International Financial Reporting Standards (IFRS). The effects of the differences between these accounting principles and the accounting principles generally accepted in the countries in which the accompanying financial statements are to be used and IFRS have not been quantified in the accompanying financial statements.

TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# **SECTION FOUR**

# INFORMATION ON FINANCIAL STRUCTURE

# I. Explanations Related to the Capital Adequacy Standard Ratio

The method used for risk measurement in determining capital adequacy standard ratio; Capital Adequacy Standard Ratio is calculated in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", which was published on November 1, 2006 in the Official Gazette numbered 26333 and the Communiqué on "The Amendment in the Communiqué on Measurement and Assessment of Capital Adequacy of Banks" which was published on October 10, 2007 in the Official Gazette numbered 26669. The Bank's unconsolidated capital adequacy ratio in accordance with the related communiqué is 13.18%. (December 31, 2010: 14.03%)

In the computation of capital adequacy standard ratio, information prepared in accordance with statutory accounting requirements is used. Additionally, the market risk amount is calculated in accordance with the communiqué on the "Measurement and Assessment of Capital Adequacy of Banks" and is taken into consideration in the capital adequacy standard ratio calculation.

The values deducted from the capital base in the shareholders' equity computation are excluded while calculating risk-weighted assets, non-cash loans and contingent liabilities. Assets subject to depreciation and impairment among risk-weighted assets are included in the calculations over their net book values after deducting the relative depreciations and provisions.

While calculating the basis of non-cash loans subject to credit risk, the net receivable amount from the counter parties net of provision amount set in accordance with the "Communiqué on Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" is multiplied by the loan conversion rates presented in the Article 5, the Clause 1 of the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", and calculated by applying the risk weights presented in the Capital Adequacy Analysis Form.

Receivables from counter parties from derivative foreign currency and interest rate transactions are multiplied by the loan conversion rates presented in the Article 5, the Clause 2 of the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", and calculated by applying the risk weights presented in the Capital Adequacy Analysis Form.

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# II. Explanations Related to Market Risk

The Bank has established market risk management operations and taken the necessary precautions in order to hedge market risk within its financial risk management purposes, in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks" issued in the Official Gazette dated November 1, 2006 numbered 26333.

The Board of Directors determines the limits for the basic risk that the Bank is exposed to. Those limits are revised periodically in line with the market forces and strategies of the Bank. Additionally, the Board of Directors has ensured that the risk management division and senior management has taken necessary precautions to describe, evaluate, control and manage risks faced by the Bank.

Interest rate and exchange rate risks, arising from the volatility in the financial markets are measured, and in the computation of capital adequacy, the amount subject to VAR calculated by using the standard method (summarized below) is taken into consideration. Beside the standard method, market risk (VAR) is calculated by using internal model as supported by scenario analysis and stress tests. VAR is calculated daily by two different methods which are historic simulation and parametric method, and these results are also reported daily to the management.

### a) Information Related to Market Risk

	Amount
(I) Capital Requirement to be Employed For General Market Risk - Standard Method	3,064
(II) Capital Requirement to be Employed For Specific Risk - Standard Method	-
(III) Capital Requirement to be Employed For Currency Risk – Standard Method	45
(IV) Capital Requirement to be Employed For Commodity Risk – Standard Method	-
(V) Capital Requirement to be Employed For Settlement Risk - Standard Method	-
(VI) Total Capital Requirement to be Employed For Market Risk Resulting From Options - Standard Method	-
(VII) Total Capital Requirement to be Employed For Market Risk in Banks Using Risk Measurement Model	-
(VIII) Total Capital Requirement to be Employed For Market Risk (I+II+III+IV+V+VI)	3,109
(IX) Amount Subject to Market Risk (12.5 x VIII) or (12.5 x VII)	38,863

#### **Other price risks:**

The Bank does not invest in share certificates quoted on a stock exchange hence it is not subject to share price risk.

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# III. Explanations Related to Currency Risk

Foreign currency risk indicates the probability of loss that banks are subject to due to the exchange rate movements in the market. While calculating the share capital requirement, all foreign currency assets, liabilities and forward transactions of the Bank are taken into consideration and value at risk is calculated by using the standard method.

The Board of Directors sets limits for the positions and stop losses which are followed up daily. Any possible changes in the foreign currency transactions in the Bank's positions are also monitored.

The announced current foreign exchange buying rates of the Bank at March 31, 2011 and the previous five working days in full TRY are as follows (Bank's FC evaluation rates):

	March 24, 2011	March 25, 2011	March 28, 2011	March 29, 2011	March 30, 2011	March 31, 2011
USD	1.5484	1.5496	1.5518	1.5590	1.5542	1.5423
CHF	1.7119	1.6944	1.6908	1.6938	1.6760	1.6871
GBP	2.5088	2.4917	2.4865	2.4914	2.4928	2.4741
100 JPY	1.9148	1.9098	1.9004	1.8944	1.8704	1.8619
EURO	2.1979	2.1915	2.1872	2.1946	2.1844	2.1863

The simple arithmetic averages of the major current foreign exchange buying rates of the Bank for the thirty days before March 31, 2011 are as follows:

	Monthly Average Foreign Exchange Rate
USD	1.5754
CHF	1.7149
GBP	2.5448
100 JPY	1.9285
EURO	2.2078

(\*) Foreign currency indexed loans amounting to TRY 223,508 Thousand (December 31, 2010: TRY 174,776 Thousand) are included in the loan portfolio.

(\*\*) There are no effects on the net off-balance sheet position.

(\*\*\*) It includes also TRY 28,107 Thousand and TRY 16,799 Thousand forward asset purchase & sale commitments (December 31, 2010: TRY 52,664 Thousand and TRY 53,495 Thousand, respectively).

(\*\*\*\*) TRY 72 Thousand asset from derivative financial instruments and TRY 89 Thousand liability from derivative financial instruments are not included (December 31, 2010: TRY 12 Thousand assets from derivative financial instruments).

#### Foreign currency sensitivity:

The Bank holds EUR and USD currencies positions mainly.

The following table details the Bank's sensitivity to a 10% increase or decrease in the TRY against USD and EUR. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. Positive/(Negative) number indicates a change in profit or loss and other equity where USD and EUR increase 10% against TRY.

# TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

# **IV.** Explanations Related to Interest Rate Risk

Interest rate risk shows the probability of loss related to the changes in interest rates depending on the Bank's position, and it is managed by the Asset-Liability Committee. The interest rate sensitivity of assets, liabilities and off-balance sheet items related to this risk are measured by using the standard method and included in the market risk for capital adequacy.

Risk Department performs duration, maturity and sensitivity analysis to protect the effect of interest rate volatility and reported to the Asset-Liability Committee.

Simulations on interest income are performed in connection with the forecasted economic indicators used in the budget of the Bank. The negative effects of the fluctuations in the market interest rates on the financial position and the cash flows are minimized by revising budgeted targets.

The Bank management follows the market interest rates daily and revises the interest rates of the Bank whenever necessary.

Since the Bank does not permit maturity mismatches or imposes limits on mismatch, a significant interest rate risk exposure is not expected.

# Information related to the interest rate sensitivity of assets, liabilities and off-balance sheet items (based on repricing dates):

#### **Interest rate sensitivity:**

If interest rates had been increased by 0.5% in TRY and by 0.5% in FC and all other variables were held constant, the Bank's:

Net profit would change by TRY 1,194 Thousand. The change in profit mainly related to FC loans and other deposits (December 31, 2010 : TRY 703 Thousand).

There is no effect on the Bank's equity.

# V. Explanations Related to Liquidity Risk

Liquidity risk occurs when there is insufficient cash or cash inflows to meet the cash outflows completely and timely.

Liquidity risk may also occur when the market penetration is not adequate, when the open positions cannot be closed quickly at suitable prices and sufficient amounts due to barriers and break-ups at the markets.

The Bank's policy is to establish an asset structure that can meet all kinds of liabilities by liquid sources at all times. In this context, liquidity problem has not been faced in any period. In order to maintain this, the Board of Directors of the Bank continuously determines standards for the liquidity ratios, and monitors them.

According to the general policies of the Bank, the matching of the maturity and interest rate structure of assets, and liabilities is always established within the asset liability management strategies. A positive difference is tried to be established between the yields of TRY and foreign currency assets and liabilities on the balance sheet and their costs. In this sense, various crisis scenarios which are prepared by risk management group are presented to management and audit committee.

When the funding and liquidity sources are considered, the Bank covers majority of its liquidity need by deposits, and in addition to this source, it makes use of pre-financing and syndication products to generate additional sources.

Total	18,595	85,621	15,469	76,795

b) Maturity analysis of borrowings:

	March	31, 2011	December	31, 2010
	TRY	FC	TRY	FC
Short-term	18,595	67,313	15,469	59,484
Medium and long-term	-	18,308	-	17,311
Total	18,595	85,621	15,469	76,795

4. Other liabilities which exceed 10% of the balance sheet total (excluding off-balance sheet commitments) and the breakdown of these which constitute at least 20% of grand total: None.

#### 5. Explanations on lease obligations (Net):

a) The general explanations on criteria used in determining installments of financial lease agreements, renewal and purchasing options and restrictions in the agreements that create significant obligations to the Bank:

In the financial lease agreements, installments are based on useful life, usage periods and provisions of the Tax Procedural Code.

- b) The explanation on modifications in agreements and new obligations resulting from such modifications: None.
- c) Explanation on finance lease payables:

	March 31, 2011		December 31, 2010	
	Gross	Net	Gross	Net
Less than 1 Year	6	6	9	9
Between 1-4 Years	-	-	1	1
More than 4 Years	-	-	-	-
Total	6	6	10	10

d) Explanations regarding operational leases:

Head-Office and all branch premises of the Bank are leased under operational leases. In the first three months of 2011, operational lease expenses amounting to TRY 1,874 Thousand have been recorded in the profit and loss accounts (December 31,2010: TRY 7,060 Thousand). The lease periods vary between 5 and 10 years.

e) Explanations on the lessor and lessee in sale and lease back transactions, agreement conditions, and major agreement terms: None.

#### TURKLAND BANK ANONİM ŞİRKETİ NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE PERIOD ENDED MARCH 31, 2011 (Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

#### II. Explanations and Disclosures Related to the Liabilities (continued)

6. Information on derivative financial liabilities for hedging purposes: None.

#### 7. Information on provisions:

a) Information on general provisions:

	March 31, 2011	December 31, 2010
General Provisions		
Provisions for First Group Loans and Receivables	8,436	7,548
Provisions for Second Group Loans and Receivables	465	544
Provisions for Non-cash Loans	1,740	1,621
Other	-	-
Total	10,641	9,713

- b) Foreign exchange losses on the foreign currency indexed loans and finance lease receivables: The foreign exchange losses amounting to TRY 1,619 Thousand (December 31, 2010: TRY 602 Thousand) on the foreign currency indexed loans are netted off from loans on the balance sheet.
- c) The specific provisions of TRY 2,014 Thousand (December 31, 2010: TRY 2,082 Thousand) were provided for unindemnified non cash loans.
- d) Information on employee termination benefits and unused vacation accrual:

Bank has calculated the reserve for employee termination benefits by using actuarial valuation methods as set out in the TAS No: 19 and reflected this in the financial statements.

	March 31,	December 31,
	2011	2010
Employee termination benefit provision	2,309	2,173
Unused vacation provision	1,596	1,476
Total of provision for employee benefits	3,905	3,649

In accordance with TAS No:19 "Turkish Accounting Standard on Employee Benefits"; total benefit is calculated for each employee who has completed over one year of service, whose employment is terminated due to retirement or for reasons other than resignation or misconduct. The cost of providing benefits to the employees for the services rendered by them under the defined benefit plan is determined by independent actuaries annually using the projected unit credit method. All actuarial gains and losses are recognized in the income statement.

#### III. Explanations and Disclosures Related to the Liabilities (continued)

#### 9. Information on Shareholders' Equity:

#### a) Presentation of Paid-in capital:

As of March 31, 2011 the Bank's nominal paid-in-capital amounting to TRY 170,000 Thousand consists of 1,700 million shares.

	March 31, 2011	December 31, 2010
Common stock (*)	170,000	170,000
Preferred stock	-	-

(\*) Nominal Capital

- b) The Bank does not apply registered share capital system.
- c) Information on share capital increases and their sources; other information on increased capital shares in the current period: None
- d) Information on share capital increases from revaluation funds in the current period: None.
- e) Capital commitments in the last fiscal year and at the end of the following interim period, the general purpose of these commitments and projected resources required to meet these commitments: None.
- f) Indicators of the Bank's income, profitability and liquidity for the previous periods and possible effects of these future assumptions on the Bank's equity due to the uncertainty of these indicators:

Prior year income, profitability and liquidity of the Bank is closely monitored by the Financial Reporting Department and reported to the Board of Directors, Asset and Liability Committee. Risk Management tries to forecast the effects of interest, currency and maturity fluctuations that change these indicators with static and dynamic scenario analysis. Net asset value, which is defined as the difference of fair values of assets and liabilities, is measured. Expectations are made for Bank's future interest income via simulations of net interest income and scenario analysis.

- g) Information on preferred shares: None.
- h) Information on marketable securities value increase fund:

	March 31, 2011	December 31,2010
